

HIGH PURITY TECHNOLOGY, INC.

50 PERSHING AVENUE * P.O. BOX 870

POUGHKEEPSIE, N.Y. 12602-0870

(845) 452-1103 * FAX (845) 471-8965

GENERAL PRODUCT SPECIFICATIONS:

HP SERIES 1 SCHEDULE PIPE AND FITTINGS

1/2" to 12" stainless steel material to be 304/L, 316/L, seamless or welded, pickled and annealed. All material must conform to the following ASTM specifications:

**ASTM A312 PIPE
ASTM A403WP FITTINGS
ASTM A479 BAR STOCK**

Pipe O.D. is mill finish and identifies manufacturer, size, schedule, alloy, heat number and lot identification number.

Ends of pipe and fittings are checked for specification compliance for off angle squareness and ovality.

Product standard I.D. should be 100RA maximum, free of scale, slag, weld spatter, rust and other foreign matter.

A product certification will be provided with each shipment. The certification will include the physical and chemical characteristics by the size and heat number of the product, as well as the cleaning compliance certification.

High Purity Technology, Inc. certifies that Class 1 or Class 2 ozone depleting chemicals are not utilized in the processing of Series 1 products.
